SMART LIGHTING TRENDS

BSI® Lighting Technologies follows smart, sustainable and ecologically responsible outdoor lighting principles using new technologies and best practices in lighting design.

We provide the most current research and information to our clients on smart lighting solutions based on their performance and real effectiveness.

Total lighting solution

BSI® Lighting Technologies outdoor luminaires combine high technology and stylish design, from classic to modern, with high-efficiency LED technology.

Our portfolio brings in optimal lighting solutions for architectural, architainment, commercial and public applications. All products from urban, roadway lighting to residential, parking, area, pedestrian, tunnel & underpass, flood and landscape lighting are specifically designed to provide efficient visual comfort and enjoyment.

Architainment Lighting

The range inspires architects, designers and system integrators with its exceptional quality, a variety of beam angles and remarkable creativity.

Floodlighting

Fixtures to highlight the most important exterior architectural details from general purpose to specification and architectural grade.

Accent Lighting

Our passion for architectural lighting and design is reflected in our wide range of contemporary accent lighting portfolio offering creative lighting schemes to enhance modern architecture with light uniformity.

Underpass and Tunnel Lighting

Specially designed luminaires for underpass & tunnel lighting combines aesthetics with high performance using next generation LEDs.

Industrial and Ceiling

The range offers an ideal solution in sports halls, swimming pools and industrial areas in terms of lighting comfort, energy efficiency, durability and freedom from maintenance.

Urban-Area Lighting

Extensive selection of wide area and site lighting for illuminating parking lots, residential roads, walkways and surrounding areas.

Aesthetically sophisticated and robust lighting solutions guarantee optimum lighting principles.

Light Elements and Bollards

Light element and bollard range for garden, entryways, paths and terraces create a warm and inviting exterior with sustainable LED technology.

Wall Effect

Timeless and decorative wall luminaire range combines light with architecture in a characteristic style.

Indoor Lighting

BSI® Lighting Technologies offers a complete architectural indoor lighting system able to meet any project requirement.

CREATIVE MEDIA FACADE SOLUTIONS

Easy Control

With the use of next-generation live or stand-alone interfaces, our systems can connect to iPhone, iPod Touch, or iPad to the same Wi-Fi network remotely.

Project Approach and Commissioning

The company team studies each project with a unique approach and creates custom-made systems that allow greater integration into the architecture. BSI® provides final commissioning for the projects.

System Monitoring

Voltage Monitoring, Temperature Monitoring, Status Monitoring, Power Cycle Monitoring, Lumen-Maintenance Life Monitoring. Our monitoring systems sends automatic failure alerts and status notifications to minimize operational risks.

Customization Options

The products can be tailored on each project for a unique solution. Full customization options are available for pixel pitch and length of items give flexibility in adopting into various architectural surroundings and display effects such as text, graphic and video.

Dynamic Lighting

BSI® offers tuneable white systems, allowing you to change the character of a space using variable colour temperatures from warm 2700K to cool 6500K.

Right Colour

Option of choosing RGBW as an alternative to RGB is available, providing a mix of RGB with cool or warm white colours.

The Company

BSI® Lighting Technologies; designs and manufactures creative lighting solutions for the international architectural lighting market. BSI® offers a wide range of services, from consultation and advice to architects and architectural lighting designers during the initial project design phase to helping to identify and develop technology solutions, customized products or custom-designed, project specific products.

A Commitment to Better Lighting

The Company's core technology, innovative designs and superior customer service enable the next generation of illumination continuing to change the way we light the world.

In-House Research & Development

BSI® Lighting Technologies has extensive experience in designing luminaires for a range of extreme environments. With a growing portfolio of products and an increasingly comprehensive range of services our investment in Research and Technology is very important.

Warranty & Support

BSI® Lighting Technologies offers factory-direct warranty and application support. With BSI® Lighting Technologies standing behind the technology, design and manufacturing of our products, you can feel confident that you have chosen the right partner. If you ever have a question or problem, you can talk to us directly.

Committed to Excellence

The company was created to complement a variety of design styles for urban, public, hospitality, retail and residential spaces. We strive to provide our clients with innovative designs, precision metal work and unique materials. BSI® is committed to energy efficiency in design and the use of renewable and reclaimable resources.

Solid Experience

BSI® Lighting Technologies collaborates with landscape designers, architects, lighting designers and lighting specifiers to develop custom lighting solutions specific to their needs. Having an in-house design staff increases productivity and gives the client all the tools necessary to bring their ideas to life.

Design Focussed

BSI® supports all phases of the design process: from concept, through a collaborative design work-flow, to final realization within the architectural space. We offer 3D CAD modeling, photorealistic renderings and video animations to support each project.

Flexible and Independent

BSI® Lighting Technologies is an independent and flexible supplier whose know-how and knowledge is operating in many industry verticals all over Europe, Asia, Africa and the Middle East. BSI® has the full flexibility and processes to cooperate with its business partners wherever they are located.
