

PRODUCT FEATURES:

The cylindrical iCorona bollard luminaires with diffusers are used to illuminate open areas with particularly high visual comfort. Their innovative lighting technology combines the highest precision and efficiency in a surprisingly compact luminaire.

Designed to last in extremely harsh environments.

RECOMMENDATIONS FOR THE USER:

- 1) Before the installation, make sure that there is no voltage.
- 2) Do not touch the fitting when it is working on / switched on
- 3) Do not look at the fitting directly or from a short distance.
- 4) Disconnect / switch off the fitting before changing the lamps

NOTES:

- Technical amendments are reserved.
- CE – Conformity mark
- The manufacturer is then discharged from liability when damage is caused by improper use or installation.
- Clean luminaire regularly with solvent-free cleansers from dirt and deposits. Do not use high pressure cleaners.

- 1) - The gijons are screwed into the anchor.
- The prepared anchorage is embedded in the concrete.

- 2) After the concrete has been dried, the electrical cables are pulled.

- 3) -Loosen the setscrews at the bottom of the luminaire and remove the flange from the luminaire.
- The flange is seated on the anchor and the new inox washer is tightened to the threads.
- Electrical connection is done and luminaire is placed on the flange.
- Luminaire is fixed to the flange with fastening the setscrews below.
