

## Bollards

Landscape lighting plays a crucial role in enhancing the aesthetics, safety, and functionality of the environment. iCupio is a perfect synergy of sophisticated design and practical functionality. Designed to enhance the aesthetic appeal of your spaces and provide efficient lighting solutions.

Architectural LED bollard range inspires architects, designers and system integrators with its exceptional quality, functional light distribution and remarkable creativity.

### Timeless and Refined

iCupio boasts a timeless and versatile design that seamlessly integrates with various architectural styles. The sleek and modern aesthetics make them a perfect choice for a wide range of outdoor environments.

The iCupio family of bollards create beautiful and intentional light emanating from a refined design. The various modes of installation and the orientability of the product respond to specific functional and architectural requirements of every urban context.

### Integrated Solution and Easy to Install

The robust luminaire, which is equipped with an integral power supply unit, is optionally available with DALI control or in the user-friendly On-Off version.

The product is supplied pre-wired, permitting simple, rapid and safe installation.

#### Technical Features

Corrosion resistant marine grade stainless steel AISI 304L / 316L housing with stainless steel screws (A4 grade) and silicone gaskets. Power unit is built in.

LED MacAdam Step 3

Nominal Voltage 220V-240V AC, 50/60Hz

Operating Temperature -40°C / +55°C

Control Systems 1-10V DIM, DALI Interface

Protection Class IP66

Impact Resistance IK08

Insulation Class I

Complies with EN60598 and relevant standards.
